# DEV CONNECTION

THE APP THAT CONNECTS WDI 48 COHORT TO POTENTIAL EMPLOYERS

"Almost better than secretly putting an infinite loop on Brocks computer" -Mark M.

Essentially, if you had 20 seconds to make an opinion on a potential employer- heres your chance.

Airy, open layout with generous amounts of images and easily digestable info in bite sized chunks.

The basic idea is to create a web app that a user can create a profile. The user can include information such as preferred program languages, areas of expertise, upload a head shot, and/or a few links to portfolio projects.
